In Germany, summer days are really long. The sun rises at 5 in the morning and sets around 10 at night. During summer vacation, I always stay up late!

Last weekend it was my birthday and my parents got me a new bike. It is **blue** - my favorite color! We cycled to the city center to eat icecream. My favorite kind is spaghetti icecream. It looks like Italian spaghetti with tomato sauce and parmesan cheese but is actually made from vanilla ice cream, strawberry sauce, and white chocolate. On our way, we passed many beautiful flower fields. I like the red poppy flowers and blue corn flowers the best.

Two weeks ago, we went camping. It was fun but dad left the zipper on our **yellow tent** open. The next morning we had lot's of mosquito bites. The one on my knee still feels itchy.

During the first two weeks of summer vacation my parents, my little brother and I went on a trip to northern Germany. The ocean there is nice and cool but you can still enjoy the sun. I like to tan on my big **green beach towel**. But be careful! If you tan for too long or don't use sunscreen, you will get sunburned. Like my little brother. Now his **skin** is as **red** as his **hair** haha.

My brother and I built a sandcastle and found **purple** and **pink shells** on the beach. If you are lucky you get to see seals too! I love seals, they are so cute! Next year we will visit the mountains in the south of Germany. I wish it was always summer vacation.
